

CCMC

Village People¹, Erika Palmerio², and Christina Kay³

¹YMCA, USA

²Predictive Science Inc., USA

³The Johns Hopkins Applied Physics Laboratory, USA

MODELS

Send them all for onboarding, the

MODELS

We will run them for you, all the

MODELS

On the supercomputers, there's no

Need to have allocations

MODELS

There's a place you can go, for the

MODELS

That you might want to use, all the

MODELS

There's no shortage of choice

For your simulation needs

We run them all at the

CCMC

We run them all at the

CCMC

We do CMEs

We do SEPs

And we even do magnetosphere

We run them all at the

CCMC

We run them all at the

CCMC

You can send a request

You will then get your link

Et voilà your results are all here

MODELS

Are you listening to me, I said

MODELS

Just tell us what you need, 'cause our

MODELS

Really do have it all, and make your

Research dreams come true

MODELS

We got Runs-on-Request for the

MODELS

We got Instant Run services and

MODELS

That we run in real time, 'cause we

Got our eyes on the Sun

We run them all at the

CCMC

We run them all at the

CCMC

We do CMEs

We do SEPs

And we even do magnetosphere

We run them all at the

CCMC

We run them all at the

CCMC

You can send a request

You will then get your link

Et voilà your results are all here

MODELS

We even offer scoreboards for the

MODELS

You can send your predictions and

MODELS

Will then be validated through

Community challenges

MODELS

What are you waiting for? Use the

MODELS

We are here to support all the

MODELS

At the CCMC where we

Unveil the Sun's secrets

We run them all at the

CCMC

We run them all at the

CCMC

We do CMEs

We do SEPs

And we even do magnetosphere

CCMC

It's fun to work at the

CCMC

Research, forecasts, there's no need to feel down

We got you covered from corona to ground

CCMC

It's fun to work at the

CCMC

Research, forecasts, there's no need to feel down

We got you covered from corona to ground

CCMC

We solve space weather at the

CCMC

Geomagnetic storms, radiation, blackouts

There's not a single lame day on the Sun

CCMC AND JUST GO TO THE CCMC, CCMC, ...
